- [Email](#)

In the academic session of 2003-04, students of Karim City College participated in the Ranchi University Youth Fest. The students unleashed their talent there, bagged several prizes and returned with newly discovered confidence and pride. Our seniors realized the hidden potential and with the encouragement and support of College authorities, came up with the Society for Promotion of Art and Culture, popularly known as SPArC. Since then, SPArC has been a platform for students to channelize their latent energy, ventilate their creative force and inculcate love for culture and a passion for art. For achieving its goal, SPArC organizes literary and culture programmes in the campus and also ensures students' participation in co-curricular activities outside the campus. SPArC's mission and vision is striving to make the students multi-dimensional and trying to keep them away from destructive forces. SPArC creates a positive persona among the students and also makes the campus vibrant and amicable for them.

SPArC comprises of four clubs and two forums which look after its activities and organize numerous events throughout the academic session. Under the guidance of the Patron, Convener, Executive Committee and the co-operative efforts of the members of the student committee, the students are trained by the activity class teachers. The clubs and forums are functioning smoothly towards ensuring student participation in co-curricular activities.

- Music Club
- Literary Club
- Fine Art Club
- Drama Club

## THE PILLARS OF SPARC

SPArC comprises of four clubs and two forums which look after its activities and organize numerous events throughout the academic session. Under the guidance of the Patron, Convener, Executive Committee and the co-operative efforts of the members of the student committee, the students are trained by the activity class teachers. The clubs and forums are functioning smoothly towards ensuring student participation in co-curricular activities.
